

Thursday Poster Session 4:00pm - 5:30pm Exhibit Hall							
TV1				TV2			
TIME	ID	TITLE	AUTHOR	TIME	ID	TITLE	AUTHOR
4:00 PM	1	The Role of Artificial Intelligence in Assisted Reproduction Technologies: Insights from Canadian Patient Perspectives.	L. Vanzella , K. Anwender, J. Kirkey, N. Mercuri, D. Nayot, and J. Fjeldstad	4:00 PM			
4:10 PM	2	Low Estradiol:Oocyte ratio is correlated with lower Blastocyst development and Euploidy rates: A retrospective chart review	K. Huang , S. Deniz, S. Amin, K. Kteily, M. Faghih, M. Karnis, and M. Neal	4:10 PM	11	Knowledge of Anti-Müllerian Hormone Level Changes Patient Family Planning	E. McMahon , H. Kochhar, W. Yan, and T. Hannam
4:20 PM	3	Assessing the risk of damage after embryo biopsy among patients with severe male factor infertility	T. H. Quach , H. Shapiro, E. Campbell, and V. Bacal	4:20 PM	12	A novel Non-Toxic Fluorescent Markers for Continuous Embryo Live Imaging	D. Montjean , K. Audette, S. Mathien, M. Benkhalifa, I. Bilem, and P. Miron

4:30 PM	4	Reproductive outcomes in recurrent pregnancy loss and implantation failure patients with chronic endometritis after antibiotic treatment	M. Peeva , D. Chartrand, A. Wolfsohn, A. Busca, J. Gale, and C. Q. Wu	4:30 PM	13	Impact of Endometriosis Diagnosis on Endometrial Receptivity (usER) and IVF Outcomes	R. Casper , K. Cadesky, C. Laskin, H. Pierson, J. Invik, and R. Pierson
4:40 PM	5	Live birth outcomes among patients with recurrent pregnancy loss: the impact of biochemical versus euploid clinical loss	B. Elbasueny , Y. Liu, H. Lu, E. Woolcott, R. Habte, and M. Bedaiwy	4:40 PM	14	Frozen Embryo Transfers with Ovulatory versus Hormonal Mediated Cycles: a Retrospective Study .	O. Silverberg , M. Manley, N. Sanchez Diaz, S. Wang, E. Huszti, S. Dason, S. Dixit, and E. Greenblatt
4:50 PM	6	Shift Work as a Potential Risk Factor for Lower Ovarian Reserve: A Study of Fertility Patients	A. Banjoko , N. Harris, S. Mousavi, S. Wang, E. Huszti, Z. Ferraro, and C. Jones	4:50 PM	15	Wearable technology effectively predicts ovulation in women undergoing IUI treatment.	V. Vastis , M. Neal, A. Humeniuk, A. Mahnam, B. Moineau, S. Bennett, M. Bagheri, S. Deniz, S. Amin, K. Kteily, M. Karnis, J. Barrett, and M. Faghih
5:00 PM	7	Comparison between ultrafast and conventional method for warming Blastocysts using Kitazato vitrification media: A retrospective study	R. Baydoun	5:00 PM	16	Phase I Clinical Trial: Pilot study of Somatic-Autonomic Nerve Grafting Technique to Restore Erectile Function in patients with Persistent Erectile Dysfunction Post Radical Prostatectomy	I. Sadri , H. Alshamsi, L. Delli Colli, O. Loutochin, C. Tholomier, A. Rompre-Brodeur, and V. McPherson

5:10 PM	8	redictive performance of early ultrasound markers and clinical characteristics for live birth in a recurrent pregnancy loss population	B. Elbasueny , S. Dobrer, A. Sidhu, H. Lu, E. Woolcott, P. Yong, S. Lisonkova, K. Joseph, and M. Bedaiwy	5:10 PM	17	Beyond BMI: Variability in Waist Circumference Suggests Limitations in Using BMI Alone in Predicting Obesity in Individuals Seeking Fertility Care	Z. Uraz , W. Yan, H. Kochhar, and C. Schram
5:20 PM	9	BCL6 AS A MARKER OF UTERINE LINING INFLAMMATION; A RETROSPECTIVE ANALYSIS OF TREATMENT AND OUTCOMES IN CANADA'S LARGEST USER	S. Sonnenberg , S. Tregoning, and D. Angress	5:20 PM	18	Planned Oocyte Cryopreservation Utilization, Fertility Outcomes, and Patient Experience: A Systematic Review & Meta-Analysis	M. E. Boulos , D. Karol, E. Harrington, E. Huszti, S. Wang, B. Leslie, and J. Michaeli

Thursday Poster Session 4:00pm - 5:30pm Exhibit Hall							
TV3				TV4			
TIME	ID	TITLE	AUTHOR	TIME	ID	TITLE	AUTHOR
4:00 PM	19	Against the Odds: Live Births After Low Initial β-hCG in IVF Cycles	S. DiMarco , K. Mundle, Q. Li, E. Huszti, D. Arguelles, and V. Bacal	4:00 PM	28	Decoding Infertility: Genetic Diagnostic Panel Findings	A. Magwood , C. Casanova, and J. Martin

4:10 PM	20	How does Maximum Endometrial Thickness (ET) in intra-Uterine Insemination cycles Predict Pregnancy Outcomes?	S. Zawawi , I. Feferkorn, and M. H. Dahan	4:10 PM	29	Early Action, Better Outcomes: The Impact of Pre-Conception Vitamin D Screening and Supplementation in a Fertility Cohort	J. Gluckstein , H. Kochhar, W. Yan, Z. Uraz, and C. Schram
4:20 PM	21	Exome Sequencing Reveals Cancer and Multisystemic Disease Genetic Variants in Infertile Men: Implications for Reproductive Health Management .	H. Chang	4:20 PM	30	How Age, Stimulation Protocol, and Cycle number affect pregnancy Outcomes in Donor Insemination - Analysis of 1961 Cycles.	N. Moussaoumay , R. Hemmings, and C. Sylvestre
4:30 PM	22	An imbalance in stromal and epithelial lineages as a consequence of aberrant steroid hormone signalling in the pathophysiology of thin endometrium .	N. Siddique , B. Cox, A. Jurisicova, and R. Casper	4:30 PM	31	Clinical utility of post-GnRH agonist trigger serum hormonal testing and effect on the incidence of Empty Follicle Syndrome: a single-centre retrospective cohort study	R. Kloosterman , J. Michaeli, and T. Dinh
4:40 PM	23	Anthropometric Measures Correlate More Strongly with Fasting Insulin than HbA1c: Implications for Early Metabolic Screening in Fertility Care .	Z. Uraz , W. Yan, H. Kochhar, K. Villeneuve, and C. Schram	4:40 PM	32	Developmental competence of oocytes using rescue IVM compared to in vivo-matured sibling oocytes	R. M. R. Fonseka , L. Lambert, M. Crowe, H. Kochhar, W. Yan, T. Hannam, W. B. Schoolcraft, and J. Swain

4:50 PM	24	Hemoglobin A1c Levels are Associated with Viable Clinical Pregnancy Rates in Euploid Embryo Transfers	Z. Uraz , W. Yan, H. Kochhar, M. Crowe, K. Villeneuve, and C. Schram	4:50 PM	33	Zygote Banking Strategy: Impact of Single Vitrification versus Double Vitrification	R. M. R. Fonseka , M. Crowe, W. Yan, H. Kochhar, T. Hannam, W. B. Schoolcraft, and J. Swain
5:00 PM	25	Non-invasive Miscarriage Testing Using Cell-Free DNA: Factors Contributing to Non-Informative Results	A. Magwood , C. Casanova, and M. Milan Sanchez	5:00 PM	34	Preoperative Administration of Tranexamic Acid (TXA): A Possible Approach To Reduce Egg Retrieval Side Effects .	A. Gilani , W. Yan, H. Kochhar, N. Lee, C. Schram, and S. Moore
5:10 PM	26	Day 0 Late Maturing Eggs Display Reduced Embryo Development Following ICSI	R. M. R. Fonseka , S. Balachandran, M. Crowe, H. Kochhar, W. Yan, T. Hannam, J. Swain, and W. B. Schoolcraft	5:10 PM	35	Impact of Ovarian Stimulation Protocols on Follicle and Oocyte Development: Preliminary Findings from a Retrospective Analysis .	A. Djimbi-Simba , K. Liu, and C. Halari
5:20 PM	27	Evaluation of ZyMöt™ Multi Microfluidic Sperm Selection for Intrauterine insemination (IUI)	B. Gholamoseini , S. Moskovtsev, H. Balakier, and C. Librach	5:20 PM	36	Chorionic bump as a marker for early pregnancy loss - a retrospective cohort study	R. Keller, E. Liu , Q. Li, E. Huszti, and N. Pereira

Thursday Poster Session | 4:00pm - 5:30pm | Exhibit Hall

TV5

TV6

TIME	ID	TITLE	AUTHOR	TIME	ID	TITLE	AUTHOR
4:00 PM	37	Infertility and the risk of congenital anomalies: A population-based cohort study	B. Milne , S. Brogly, and M. Velez	4:00 PM	46	The Role of Artificial Intelligence in Assisted Reproduction Technologies: Insights from Canadian Patient Perspectives.	L. Vanzella , K. Anwender, J. Kirkey, N. Mercuri, D. Nayot, and J. Fjeldstad
4:10 PM	38	From Data to Normogram: Modeling the Cubic Decline of AMH Beyond Fixed Cut-Offs in 15,000 Canadian Women .	A. Tadevosyan , E. Kadoch, and I. J. Kadoch	4:10 PM	47	Low Estradiol:Oocyte ratio is correlated with lower Blastocyst development and Euploidy rates: A retrospective chart review	K. Huang , S. Deniz, S. Amin, K. Kteily, M. Faghih, M. Karnis, and M. Neal
4:20 PM	39	Fertility Outcomes Following a Novel Endometriosis Blood Test .	E. Lim, A. Goyal, J. Prigoff, E. Ball, and J. McNaught	4:20 PM	48	Assessing the risk of damage after embryo biopsy among patients with severe male factor infertility	T. H. Quach , H. Shapiro, E. Campbell, and V. Bacal

4:30 PM	40	Impact of polycystic ovary syndrome on offspring neuropsychiatric development: a systematic review and meta-analysis .	S. Wei , J. Tan, M. Cao, Y. Lu, M. H. Dahan, and S. L. Tan	4:30 PM	49	Reproductive outcomes in recurrent pregnancy loss and implantation failure patients with chronic endometritis after antibiotic treatment	M. Peeva , D. Chartrand, A. Wolfsohn, A. Busca, J. Gale, and C. Q. Wu
4:40 PM	41	Retrospective cohort pain study: Impact of pre-procedural administration of IV Gravol on IVF oocyte retrieval pain scores reported by patients and providers .	M. Shere , S. Deniz, S. Amin, K. Kteily, M. Karnis, M. Neal, and M. Faghih	4:40 PM	50	Live birth outcomes among patients with recurrent pregnancy loss: the impact of biochemical versus euploid clinical loss	B. Elbasueny , Y. Liu, H. Lu, E. Woolcott, R. Habte, and M. Bedaiwy
4:50 PM	42	The Effect of Seasonality on the Reproductive Outcome of Patients Undergoing Intracytoplasmic Sperm Injection	M. Eskandar	4:50 PM	51	Shift Work as a Potential Risk Factor for Lower Ovarian Reserve: A Study of Fertility Patients	A. Banjoko , N. Harris, S. Mousavi, S. Wang, E. Huszti, Z. Ferraro, and C. Jones
5:00 PM	43	Pregnancy outcomes of intrauterine insemination (IUI) using microfluidics ZyMot device for patients with high sperm DNA fragmentation. .	O. Kesidou , H. Hamze, R. Hemmings, and S	5:00 PM	52	A Comparison between ultrafast and conventional method for warming Blastocysts using Kitazato vitrification media: A retrospective study	R. Baydoun

5:10 PM	44	Advancing Fertility Care Equity in British Columbia	P. Blesch	5:10 PM	53	Predictive performance of early ultrasound markers and clinical characteristics for live birth in a recurrent pregnancy loss population	B. Elbasueny , S. Dobrer, A. Sidhu, H. Lu, E. Woolcott, P. Yong, S. Lisonkova, K. Joseph, and M. Bedaiwy
5:20 PM				5:20 PM	54	BCL6 AS A MARKER OF UTERINE LINING INFLAMMATION; A RETROSPECTIVE ANALYSIS OF TREATMENT AND OUTCOMES IN CANADA'S LARGEST USER	S. Sonnenberg , S. Tregoning, and D. Angress

Friday Poster Session | 2:30pm - 4:00pm | Exhibit Hall

TV1				TV2			
TIME	ID	TITLE	AUTHOR	TIME	ID	TITLE	AUTHOR
2:30 PM	55	Preimplantation Genetic Testing (PGT) Failure Rates by Biopsy Day and Embryo Grade	C. Welch , H. Joshi, S. Rodriguez, S. Tormasi, J. Nefalar, A. Robles, A. Garcia, and M. Moradian	2:30 PM	64	Intracytoplasmic sperm injection for non-male factor infertility does not improve cumulative live birth rate .	Z. Ferraro , L. Meng, K. Liu, E. Greenblatt, and M. Russo
2:40 PM	56	Does subcutaneous Granulocyte Colony Stimulating Factor (G-CSF) improve ovarian reserve in women with premature ovarian insufficiency?	Y. Sadeghi , L. Deda, and R. Casper	2:40 PM	65	Effects of Surgically Retrieved Sperm on Intracytoplasmic Sperm Injection (ICSI) cycle outcomes at high volume clinic from 2013-2023	C. Damen, C. Frederick, A. Guest, N. Thornton, C. Armstrong, S. Orton, M. Sullivan, and B. Link

2:50 PM	57	The Perception of Embryo Donation Among Individuals Who Have Cryopreserved Embryos	I. Vendittoli , S. Bachilova, D. Montjean, A. Cattapan, and P. Miron	2:50 PM	66	Epigenetic Alterations, Folate Metabolism, and DNA Damage in the Sperm of Infertile Men	S. Ma
3:00 PM	58	A Systematic Assessment of Advertisements for In Vitro Fertilization Add-On Interventions on Canadian Clinic Websites	H. Benipal , A. Kirubarajan, S. Nathoo, A. Leader, and C. Jones	3:00 PM	67	Metaphase II Oocyte Structure Detection Towards an Interpretable AI model	J. Y. Huang, D. Montjean , A. Bandiang, C. Limandal, A. Diallo, M. Benkhalifa, and P. Miron
3:10 PM	59	Impact of Oxidative Stress on Oocyte Quality in Oncological vs. Elective Fertility Preservation: The OOXYP Prospective Cohort Study	I. J. Kadoch , J. Gale, B. Woolnough, M. Navarro, M. Chow-Shi-Yee, A. Tadevosyan, and A. Yuzpe	3:10 PM	68	Does Collecting One More Egg Improve Live Birth Rates in Poor Responders?	L. P. Coutu Nadeau , G. Shrem, and M. H. Dahan
3:20 PM	60	Frozen and never used: A retrospective study of 16 years of discarded frozen eggs	E. Boulet , J. Au, C. Patil, M. Campbell, and C. Dunne	3:20 PM	69	Evaluating the impact of time-lapse technology on embryologists' workflow efficiency: a comparative analysis using six sigma methodology .	A. Dias , V. Bacal, and C. Halari

3:30 PM	61	The effect of Zymot processing on IUI pregnancy rates: a retrospective, single-centre study.	S. Swanson , R. Pradeep, H. Sidhu, S. Bashar, J. Campanaro, and A. Stojsin Carter	3:30 PM	70	Ova Obscura: Medical Experiences of Egg Donation in Canada	A. Johnson Poon , S. Seabrook , S. Beneteau, and A. Cattapan
3:40 PM	62	Comparison of Follitropin Delta and Follitropin Alfa in Combination with Menotropin (The Bononza Study)	M. Chow-Shi-Yée, W. Jamal, M. Navarro, F. Bissonnette, S. Phillips, and I. J. Kadoch	3:40 PM	71	The Fertility Freeze: A Retrospective Cohort Study of Treatment Discontinuation in the Journey to Parenthood	K. Shirani , M. Neal, M. Faghih, M. Karnis, S. Amin, S. Deniz, and K. Kteily
3:50 PM	63	Fertilization rates and pregnancy outcomes in IVF cycles using frozen donor sperm fertilized by conventional IVF versus ICSI	S. Noor, S. Dephoure , J. Michaeli, S. Hamilton, H. Shapiro, Q. Li, E. Huszti, and C. Jones	3:50 PM	72	Prevalence of endometrial dysbiosis in patients with persistently thin endometrial lining undergoing assisted reproduction	S. Bhanot , A. Kulshreshtha, K. Liu, and V. Bacal

Friday Poster Session | 2:30pm - 4:00pm | Exhibit Hall

TV3				TV4			
TIME	ID	TITLE	AUTHOR	TIME	ID	TITLE	AUTHOR
2:30 PM	73	Incidence and Predictive Factors of Ectopic Pregnancy in Embryo Transfer Cycles: A Retrospective Cohort Analysis	K. Mundle, S. DiMarco, D. Arguelles, and V. Bacal	2:30 PM	82	The Impact of Endometrial Preparation Methods in Patients with Endometriosis Undergoing Frozen Embryo Transfer: A Systematic Review	B. Yarranton, M. Salman, C. Q. Wu, T. Flaxman, and J. Gale
2:40 PM	74	Bladder Distention in Frozen Embryo Transfers: Optimizing Pregnancy Outcomes through Nursing Workflows	F. Bouchard, W. Yan, H. Kochhar, and N. Lee	2:40 PM	83	Investigating the Safety of Human Umbilical Cord Mesenchymal Stromal Cells in Breast Cancer as a New Oncofertility Preservation Treatment	Y. Y. Yao, L. Lopez, A. Gauthier-Fisher, and C. Librach
2:50 PM	75	Greater variability in oocyte quality with advanced age: contribution of artificial intelligence as a counseling tool for fertility preservation	I. Paquet, L. Lapensee, M. Chow-Shi-Yée, and S. Phillips	2:50 PM	84	A systematic approach to advanced maternal age patients in in vitro fertilization .	H. Ganer Herman, R. Zwingerman, I. Feferkorn, M. H. Dahan, S. Reinblatt, E. Demirtas, and W. Buckett

3:00 PM	10	Integrating Artificial Intelligence in IVF: Perspectives from Canadian Clinicians and Embryologists on Opportunities and Considerations for Implementation	L. Vanzella , K. Anwender, J. Kirkey, N. Mercuri, D. Nayot, and J. Fjeldstad	3:00 PM	85	Which IVF protocol achieves the best pregnancy rates in women with endometriosis, the long Gonadotropin releasing hormone (GnRH) agonist or the GnRH antagonist? A study of more than 34,000 cycles from the German IVF database. .	P. Ginaud and M. H. Dahan
3:10 PM	77	Impact of Progesterone Levels on the Day of Ovulation Trigger and Progesterone Ratios on Oocyte Quality and Pregnancy Outcomes: A Retrospective Study	A. M. Turcotte, R. Hemmings, L. Lapensee, M. Chow-Shi-Yée, and T. Shaulov	3:10 PM	86	Cannabinoids alter luteotropic functions of primary human granulosa cells	C. Duval , B. Wyse, V. Pruneau, S. Pathak, A. Gauthier-Fisher, and C. Librach
3:20 PM	78	Fertility Outcomes Following Elagolix Treatment in Infertile Patients with and Without Endometriosis	A. Goyal, E. Lim, J. Prigoff, and J. McNaught	3:20 PM	87	Comparative Analysis of Bovine In Vitro Fertilization Outcomes Using Synthetic Oviductal Fluid and Gx-TL™ Human Culture Media in a Time-lapse Incubator	S. Manick

3:30 PM	79	Effect of co-culture with cumulus cells on in vitro human blastocyst development and cycle outcomes in poor prognosis patients	Z. Ibarrientos , I. Kuznyetsova, A. Baratz, and C. Librach	3:30 PM	88	Identifying Biomarkers of Recurrent Implantation Failure: A Transcriptomic Analysis of the Endometrium	C. Librach, S. Russell, and C. Keshen
3:40 PM	80	Gene regulatory modules in post-implantation human embryos reveal distinct mechanisms of aneuploidy tolerance	Y. S. S. Kwok , S. Russell, H. Balakier, S. Chen, S. Madjunkova, and C. Librach	3:40 PM	89	Impact of Body Weight on IVF Outcomes with Preimplantation Genetic Testing for Aneuploidy in Women with PCOS .	R. Abramov , S. Madjunkova, C. Librach, and M. Madjunkov
3:50 PM	81	Elevated serum progesterone concentrations are associated with lower ongoing pregnancy rates in modified natural cycle FET protocols	G. Nakhuda and C. Mendoza	3:50 PM	90	Cumulative effect of Maternal and Fetal ANXA5 M2 Haplotype on Sporadic Euploid Miscarriage after IVF treatment.	M. Madjunkov , M. Wilkinson, S. Chen, S. Prati, A. Baratz, K. Glass, C. Librach, and S. Madjunkova

Friday Poster Session | 2:30pm - 4:00pm | Exhibit Hall

TV5

TV6

TIME	ID	TITLE	AUTHOR	TIME	ID	TITLE	AUTHOR
2:30 PM	91	he prevalence of endometriosis among Canadian fertility patients before and after implementation of a dynamic scanning protocol for assessment of soft signs of endometriosis.	J. Hickey, J. Gale, H. Alsalem, T. Flaxman, A. Sinha, S. Cayer, C. Wu, I. Graham, E. Brubacher, and S. Singh	2:30 PM	100	Impact Of Oocyte And Morphologic Characteristics On ICSI Fertilization Rates: Meta-Analysis.	A. Janmohamed, M. Neal, A. Janmohamed, M. Karnis, S. Deniz, S. Amin, and M. Faghih
2:40 PM	92	Trans women sperm parameters prior to gender affirming hormone therapy compared to WHO sperm reference standard; a retrospective cross-sectional study	L. Des Roches, R. Dayan, A. Shelrud, A. Kirubarajan, M. Faghih, M. Neal, S. Deniz, M. Karnis, S. Amin, and K. Kteily	2:40 PM	101	Supporting Fertility Patients During the Two-week Beta Wait: The Critical Role of Nursing Care .	A. Gilmour
2:50 PM	93	A Novel In Vitro Model for Investigating Mechanisms of Implantation	J. L. Welton, S. Russell, and C. Librach	2:50 PM	102	An Online AMH Percentile Calculator for Age-Specific Interpretation: Improving Clinical Context in Ovarian Reserve Assessment	J. Michaeli and O. Michaeli

3:00 PM	94	Ovarian hyper-stimulation following long acting GNRH agonist use in fertility preservation: A case series	A. Hasan and C. Jones	3:00 PM	103	MixMax Study: When Mixed Protocol Meets Maximum Dose – Are We There Yet?	I. J. Kadoch , W. Jamal, F. Bissonnette, S. Phillips, and M. Chow-Shi-Yée
3:10 PM	95	Genomic Analysis of Early Pregnancy Loss After Fertility Treatment Using Whole Genome NGS of Products of Conception" .	M. Madjunkov , S. Chen, R. Abramov, C. Librach, and S. Madjunkova	3:10 PM	104	mpacts of Bovine Preimplantation Embryo Exposure to 1µm and 0.05µm Polystyrene Microplastics	S. Wallace and P. Madan
3:20 PM	96	Direct media thawing of vitrified blastocysts: A comparative study with ultrafast warming	G. Motamedi , I. Kuznyetsova, and C. Librach	3:20 PM	105	A New Approach to Addressing the IVF vs. ICSI Debate: Comparison of Fertilization Methods in Sibling Oocytes - A Systematic Review and Meta-Analysis	D. Karol , M. Weinreich, S. Wang, E. Huszti, K. Liu, and J. Michaeli
3:30 PM	97	Enhancing Patient Understanding and Confidence Through Nurse-Led Standardized Video Education in Fertility Treatment Planning	K. Gray , M. Smrzlic , K. Shirani , M. Neal, M. Faghih, S. Deniz, S. Amin, M.	3:30 PM	106	NEW MULTIPARAMETRIC FLOW CYTOMETRY TEST SUGGESTS DIVERGING CLINICAL REFERENCE VALUES COMPARED TO SCSA IN SPERM DNA	M. Boilard , L. Massicotte, S. Larocque, and C. Morin

			Karnis, and K. Kteily			FRAGMENTATION ASSESSMENT.	
3:40 PM	98	Surrogates' Voices: The Birth Experiences of Surrogates in Canada .	E. McGrath and A. Cattapan	3:40 PM	107	Changes in the origin of sperm donors following implementation of the Safety of Sperm and Ova Regulations .	S. Moskovtsev and C. Librach
3:50 PM	99	ibe coding a user-friendly computer vision tool for automated sperm DNA fragmentation classification.	G. Nakhuda	3:50 PM	108	AI-Powered Tool for Prediction of Attainable Mosaic/Euploid Embryos in Advanced Maternal Age Patients .	A. Repalo , A. Al Chawaf, M. Madjunkov, S. Madjunkova, M. Brudno, and C. Librach
