Keep the conversation going! To get involved in Infertility Awareness Week activities, contact your clinic for more information.

**CONNECT**

1 in 6 Canadians experience infertility.

You are not alone, all communities are affected.

**LEARN**

Some Regional health plans only cover fertility investigations however, basic fertility treatments are still not universally covered.

CFAS believes infertility treatment should be publicly funded across Canada.

**ENGAGE**

Take part by joining a support group and sharing your story, attend seminars and events hosted by leading experts in the field of fertility and/or ask your clinic for further information.
